

National Capital Region Chapter of the
ACM Special Interest Group on Computer Human Interaction

Human Factors and the Immersive Media Lab Tour at CAE Professional Services

Hosted by **Jeremy Brooks** and **Mike Reid** at CAE (formerly Greenley & Associates, 1135 Innovation Drive in Kanata)

Thursday, December 14, 2006, 7:00 – 9:00 PM

(Note the **NEW** location!)

What?

CAE Professional Services Canada (formerly Greenley & Associates Incorporated) presents the application of human factors methodologies and tools at CAE to support the design and implementation of technological systems, including R&D, acquisition, system engineering, and life cycle management in the areas of critical defence, aerospace, process control and emergency management. **Jeremy Brooks**, Manager of Human Factors, will present human factors in complex systems. The presentation will be followed by a demonstration by **Mike Reid**, Manager of Strategic Programs, of CAE Professional Services' Immersive Media Lab to show how this technology can advance work in the HCI and human factors domain. For instance, CAE Professional Services uses this technology to design and conduct virtual simulation assessments of advanced systems, including land vehicles, robots, air systems, and command centres in addition to measuring the operational performance of future concepts. This will be an interactive session where the audience can participate in the discussions and demonstrations.

When and Where?

This event will take place on Thursday, December 14, 2006 from 7:00 – 9:00 PM at CAE, located at 1135 Innovation Drive, Kanata, ON, Canada.

Free parking is available on site and visitors should park in the parking lot besides the building off of Innovation Drive.

Visitors can enter through the front entrance to the building and ring **#3** for CAE PS (Professional Services).
